# Ocean Guard

Mohammad Yousef A. Tayuan

This is our homepage that compose of aqua theme and it consist three **I**'s Navigation bars and one search bar in our menu.

Our first navigation bar which is initiate is a Dropdown Navbar that contains three links, the **Donate** and **Share** are direct links and the **Petition** is our webpage. As our cursor place in navigation menu it highlights the area to emphasize the objective of our user .

This is the best part of our website which is **Initiation tab** because here where the action happens and initiation helps us to unite people in one common goal with a factual information. On the right side we can make people aware on what is happening in our marine life current situation. We have the javascript text underline functionality to know where we are which is **Initiate** that help us to have productive navigation on our website.

Infer helps people to rationalize the circumstances by looking the bigger picture that we are currenty facing and reflect to a deeper level with these valuable information can raise our awareness with slogan provided "By our initiate Earth can appreciate" which means every positive action we do increments into a greater good.

This is our **Inquire** webpage that provides information about our organization and the movement we are trying to achieve.

This is an alternative to "About us" so that we can communicate to the participants that can build a great positive community co-operation and give feedback with their concerns.
